

19th International Microscopy Congress (IMC19)

9 – 14 September 2018

International Convention Centre (Sydney)

On behalf of the Australian Microscopy and Microanalysis Society, it is our pleasure to welcome you to the 19th International Microscopy Congress (IMC19), to be held from 9-14 September 2018, in the stunning new International Convention Centre (ICC Sydney) right in the heart of Sydney.

The Congress will attract over 2,000 scientists working within and outside the microscopy sector. There will be a large interactive trade exhibition where leading suppliers are set to launch ground-breaking new instruments.

The Congress theme is '**Microscopy: Bridging the Sciences**'
